

Certificate for HACCP-conformity

Hazard Analysis and Critical Control Points

SQTS herewith attests, that the company

Rex-Royal AG
Swiss Coffee Machines
Industriestrasse 34
CH-8108 Daellikon/Zuerich

uses for the commercial dispensing appliance of the type

Rex-Royal S2

only materials, which are hygienically safe and adapted for the purpose.

The fully automatic beverage dispenser successfully fulfills the requirement of HACCP principles according the Regulation (EC) No 852/2004 on the hygiene of foodstuffs.

Examined were:

- the overall HACCP concept
- the electronic user guidance system - practical testing of its usability
- Cleaning- and rinsing program - testing of the guided procedure (usability)
- Microbiological cleaning efficiency

The user guidance system on the display easily allows the preparation of beverages and the correct cleaning of this machine according HACCP principles.

Preparation of beverages and the cleaning of the machine are in accordance with the Regulation (EC) No 852/2004 on the hygiene of foodstuffs.

The handling and cleaning of the machine via the guidance system are self-explanatory and occur in reference to HACCP principles.

The programmed cleaning and rinsing cycle is able to achieve a standardized microbiological cleaning efficiency.
